No. 1, June 2000

Frontiers review

R.P. Henry and E.R. Swenson (USA) The distribution and physiological significance of carbonic anhydrase in vertebrate gas exchange organs 1

Research articles

J. Chen, L. He, B. Dinger and S. Fidone (USA) Cellular mechanisms involved in rabbit carotid body excitation elicited by endothelin peptides 13

A. Shupak, D. Weiler-Ravell, Y. Adir, Y.I. Daskalovic, Y. Ramon and D. Kerem (Israel) Pulmonary oedema induced by strenuous swimming: a field study 25

I. Cossette, P. Sliwinski and P.T. Macklem (Canada, Poland) Respiratory parameters during professional flute playing 33

D.R. Henderson, D.M. Konkle and G.S. Mitchell (USA) Serotonin reuptake inhibition does not enhance short term modulation of the exercise ventilatory response 45

A.E. Julio, P.R. Desforges and S.F. Perry (Canada) Apparent diffusion limitations for CO_2 excretion in rainbow trout are relieved by injections of carbonic anhydrase 53

F. Lynch, M. Sweeney, R.G. O'Regan and P. McLoughlin (Ireland) Hypercapnia-induced contraction in isolated pulmonary arteries is endothelium-dependent 65

Y. Chiba, H. Sakai, T. Arimoto, Y. Takada, T. Yoshikawa and M. Misawa (Japan) Gq protein level increases concurrently with antigen-induced airway hyperresponsiveness in rats 75

Nos. 2–3, July 2000

Foreword

T.E. Dick and G.S. Mitchell (USA) Mechanisms and variables determining the cardiopulmonary responses to hypoxia 85

Research articles

T.E. Dick and S.K. Coles (USA) Ventrolateral pons mediates short-term depression of respiratory frequency after brief hypoxia 87

I.C. Solomon (USA) Excitation of phrenic and sympathetic output during acute hypoxia: contribution of medullary oxygen detectors 101

K.F. Morris, D.M. Baekey, R. Shannon and B.G. Lindsey (USA) Respiratory neural activity during long-term facilitation 119

D.D. Fuller, K.B. Bach, T.L. Baker, R. Kinkead and G.S. Mitchell (USA) Long term facilitation of phrenic motor output 135

P.G. Guyenet (USA) Neural structures that mediate sympathoexcitation during hypoxia 147

M.L. Smith and N.K. Muenter (USA) Effects of hypoxia on sympathetic neural control in humans 163

A.L. Sica, H.E. Greenberg, D.A. Ruggiero and S.M. Scharf (USA) Chronic-intermittent hypoxia: a model of sympathetic activation in the rat 173

I.R. Moss (Canada) Respiratory responses to single and episodic hypoxia during development: mechanisms of adaptation 185

E.B. Gauda and E.E. Lawson (USA) Developmental influences on carotid body responses to hypoxia 199
D. Gozal, E. Gozal and N. Simakajornboon (USA) Signaling pathways of the acute hypoxic ventilatory response in the nucleus tractus solitarius 209
F.L. Powell, K.A. Huey and M.R. Dwinell (USA) Central nervous system mechanisms of ventilatory acclimatization to hypoxia 223
G.E. Bisgard (USA) Carotid body mechanisms in acclimatization to hypoxia 237
F. Han and K.P. Strohl (USA) Inheritance of ventilatory behavior in rodent models 247
L.G. Moore (USA) Comparative human ventilatory adaptation to high altitude 257
